Slum population increase

Due to population growth and migration, the number of people in slums increased between 2000 and 2014.

Land use efficiency

In the last 20 years, cities grew by 1.5 times the rate of the population. Cities that use land more efficiently have far better conditions to provide public goods and basic services at a

Participation and govern

Inclusive participation is vital for sus urban development. Elections are th common participation avenue, followed hearing and consultations. 34% of cit engage civil society in any consulta

Developed country ities meeting air

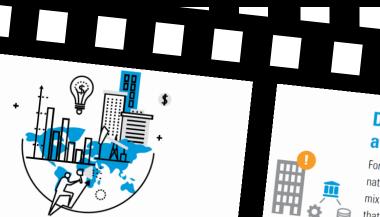

ity in cities is alarming

sive action by public authorities based on pproach is required to address air quality istrializing countries with large urban Air quality is worse off in developing leveloped countries. 97% of cities in the tries do not meet air quality standards 19% in developed countries.

Public space including streets in cities is noticeably reducing

Public Spaces including streets areas compared to the rest of the cities. Streets are the heart of the city, yet they have reduced by 4% cities are not planned. 30% of cities are not laid out at all.

2014

National Urban Policies

Since Habitat III, there is a one third increase in countries with National Urban Policies. Up to 180 countries are implementing National urban policies. The Spatial structure and economic development of cities are the most prominent components of these national urban policies.

mix of mechanisms and invest in systems

Disasters mostly affect the urban poor

For effective urban disaster response, national governments must adopt the right mix of mechanisms and invest in systems that support disaster data collection and documentation of best practices, with the full participation of local governments and civil society. 1.5 billion people were affected by disasters (2005-2015). There is progress on generation of disaster related data but with problems of accessibility and consistency. 42% of economic losses in housing are due to floods, and 25% to

UN-HABITAT STRATEGIC PLAN 2020-2025

A better quality of life for all in an urbanizing world

UN-Habitat promotes transformative change in cities and human settlements through knowledge, policy advice, technical assistance and collaborative action to leave no one and no place behind

Sustainable urbanization is advanced as a driver of development and peace, to improve living conditions for all

Org. performance enablers

1. Monitoring and knowledge

2. Innovation

3. Advocacy, communication and outreach

4. Partnerships

5. Capacity building

6. Systems and processes **Drivers of** change (How)

1. Policy & Legislation

2. Urban Planning and Design

3. Governance

4. Financing Mechanisms

Reduced spatial inequality and poverty in communities across the urban - rural continuum

Enhanced shared **prosperity** of cities and regions

Strengthened climate action and improved urban environment

Effective urban crisis prevention and response

Increased and equal access to basic **services**, sustainable mobility and public space

Increased and secure access to land and adequate and affordable housing

Effective settlements growth and regeneration

Improved spatial connectivity and productivity

Increased and equitably distributed locally generated revenues

Expanded deployment of frontier technologies and innovations

Reduced greenhouse gas emissions and improved air quality

Improved resource efficiency and protection of ecological assets

Effective adaptation of communities and infrastructure to climate change

Enhanced social integration and inclusive communities

Improved living standards and inclusion of migrants, refugees and internally displaced persons

Enhanced resilience of the built environment and infrastructure

Social inclusion issues: (1) Human rights; (2) Gender; (3) Children, youth and Older Persons; (4) Disability

Crosscutting thematic areas: (1) Resilience; (2) Safety

Outcomes (What)

ObjectiveMission

Domains of Change

Achieving the urban dimension of Agenda 2030: What role for religion and faith-based organizations? (brainstorming)

- Provide social support where urbanization has failed
- Guiding principles that can help put urbanization "on the right track"
- Promote social cohesion, gender equality and tolerance to cultural diversity
- Support monitoring mechanisms for SDG11 and related urban dimension of A2030
- Contribute to a better understanding of urbanization dynamics, challenges and opportunities
- (...)
